## Contenido

### Enfermedades Prevenibles por Vacunación

|                                                                                                                             |   |
|-----------------------------------------------------------------------------------------------------------------------------|---|
| Enteritis debida a rotavirus(A08.0), Meningitis tuberculosa(A17.0), Tétanos neonatal(A33), Tétanos(A34, A35)                | 5 |
| Difteria(A36), Tos ferina(A37), Meningitis meningocócica(A39.0), Enfermedad invasiva por neumococo(A40.3, G00.1, J13)       | 6 |
| Infecciones invasivas por haemophilus influenzae(A41.3, G00.0, J14), Poliomieltis aguda(A80), Varicela(B01), Sarampión(B05) | 7 |
| Rubéola(B06), Hepatitis vírica A(B15), Hepatitis vírica B(B16), Parotiditis infecciosa(B26)                                 | 8 |
| Infección por virus del papiloma humano(B97.7), Influenza(J09-J11), Síndrome de rubéola congénita(P35.0)                    | 9 |

### Enfermedades Infecciosas y Parasitarias del Aparato Digestivo

|                                                                                                                                                                                                                                                                         |    |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Cólera(A00), Fiebre tifoidea(A01.0), Fiebre paratifoidea(A01.1-A01.4), Otras salmonelosis(A02)                                                                                                                                                                          | 10 |
| Shigelosis(A03), Intoxicación alimentaria bacteriana(A05), Amebiasis intestinal(A06.0-A06.3, A06.9), Absceso hepático amebiano(A06.4)                                                                                                                                   | 11 |
| Infecciones intestinales por otros organismos y las mal definidas(A04, A08-A09 EXCEPTO A08.0), Otras infecciones intestinales debidas a protozoarios(A07.0, A07.2, A07.9), Giardiasis(A07.1), Otras helmintiasis(B65-B67, B70-B76, B78, B79, B81-B83 EXCEPTO B73 y B75) | 12 |
| Ascariasis(B77), Enterobiasis(B80)                                                                                                                                                                                                                                      | 13 |

### Enfermedades Infecciosas del Aparato Respiratorio

|                                                                                                                                                                                                        |    |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Tuberculosis respiratoria(A15-A16), Otitis media aguda(H65.0-H65.1), Faringitis y amigdalitis estreptocócicas(J02.0, J03.0), Infecciones respiratorias agudas(J00-J06, J20, J21 EXCEPTO J02.0 Y J03.0) | 14 |
| Neumonías y bronconeumonías(J12-J18 EXCEPTO J18.2, J13 y J14), COVID-19(U07.1-U07.2)                                                                                                                   | 15 |

### Enfermedades de Transmisión Sexual

|                                                                                                                                                            |    |
|------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Sífilis congénita(A50), Sífilis adquirida(A51-A53), Infección gonocócica del tracto genitourinario(A54.0-A54.2), Linfogranuloma venéreo por clamidias(A55) | 16 |
| Chancro blando(A57), Tricomonomiasis urogenital(A59.0), Herpes genital(A60.0), Infección por el virus de la inmunodeficiencia humana(B20-B24, Z21)         | 17 |
| Candidiasis urogenital(B37.3-B37.4), Vulvovaginitis(N76)                                                                                                   | 18 |

### Enfermedades Transmitidas por Vector

|                                                                                                                                         |    |
|-----------------------------------------------------------------------------------------------------------------------------------------|----|
| Peste(A20), Tifo Epidémico(A75), Tifo murino(A75.2), Otras rickettsiosis(A79)                                                           | 19 |
| Fiebre manchada(A77.0), Enfermedad por virus Chikungunya(A92.0), Encefalitis equina venezolana(A92.2), Fiebre del oeste del Nilo(A92.3) | 20 |
| Infección por virus Zika(A92.5), Fiebre por virus Mayaro(A92.8), Fiebre amarilla(A95), Dengue no grave(A97.0, A97.9)                    | 21 |
| Dengue con signos de alarma(A97.1), Dengue grave(A97.2), Paludismo por plasmodium falciparum(B50), Paludismo por plasmodium vivax(B51)  | 22 |

### Zoonosis

|                                                                                                                    |    |
|--------------------------------------------------------------------------------------------------------------------|----|
| Brucelosis(A23), Leptospirosis(A27), Rabia humana por fauna silvestre(A82.0), Rabia humana por fauna urbana(A82.1) | 23 |
| Teniasis(B68), Cisticercosis(B69), Triquinosis(B75)                                                                | 24 |

### Otras Enfermedades Exantemáticas

|                                  |    |
|----------------------------------|----|
| Escarlatina(A38), Erisipela(A46) | 25 |
|----------------------------------|----|

### Otras Enfermedades Transmisibles

|                                                                                                                                                                                 |    |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Tuberculosis otras formas(A17.1, A17.8, A17.9, A18-A19), Lepra(A30), Mal del pinto(A67), Enfermedad por virus Ébola(A98.4)                                                      | 26 |
| Viruela símica(B04), Otras hepatitis víricas(B17-B19 EXCEPTO B17.1, B18.2), Hepatitis vírica C(B17.1, B18.2), Conjuntivitis epidémica aguda hemorrágica(B30.3)                  | 27 |
| Tripanosomiasis americana (enfermedad de Chagas) aguda(B57.0-B57.1), Tripanosomiasis americana (enfermedad de Chagas) crónica(B57.2-B57.5), Toxoplasmosis(B58), Escabiosis(B86) | 28 |
| Conjuntivitis(H10), Infección asociada a la atención de la salud(S/C)                                                                                                           | 29 |

## Contenido

### Enfermedades de Interés Local o Regional

|                                                                                              |    |
|----------------------------------------------------------------------------------------------|----|
| Tracoma(A71), Leishmaniasis visceral(B55.0), Leishmaniasis cutánea(B55.1), Oncocercosis(B73) | 30 |
| Miasis(B87)                                                                                  | 31 |

### Enfermedades Bajo Vigilancia Sindromática

|                                                                                                                                                                  |    |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Síndrome meníngeo(G00-G03 EXCEPTO G00.0, G00.1), Infección de vías urinarias(N30, N34, N39.0), Enfermedad febril exantemática(U97), Parálisis flácida aguda(U98) | 32 |
| Síndrome coqueluchoide(U99)                                                                                                                                      | 33 |

### Enfermedades No Transmisibles

|                                                                                                                                                                                                                                                        |    |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Bocio endémico(E01), Diabetes mellitus tipo 1(E10), Diabetes mellitus tipo 2(E11-E14), Depleción del volumen (deshidratación)(E86)                                                                                                                     | 34 |
| Intoxicación aguda por alcohol(F10.0), Fiebre reumática aguda(I00-I02), Hipertensión arterial(I10-I15), Enfermedad isquémica del corazón(I20-I25)                                                                                                      | 35 |
| Enfermedad cerebrovascular(I60-I67, I69), Insuficiencia venosa periférica(I87.2), Asma(I45, I46), Gingivitis y enfermedad periodontal(K05)                                                                                                             | 36 |
| Úlceras, gastritis y duodenitis(K25-K29), Enfermedad alcohólica del hígado(K70 EXCEPTO K70.3), Cirrosis hepática alcohólica(K70.3), Hiperplasia de la próstata(N40)                                                                                    | 37 |
| Edema, proteinuria y trastornos hipertensivos en el embarazo, parto y puerperio(O10-O16), Diabetes mellitus en el embarazo(O24.4), Quemaduras(T20-T32), Intoxicación por monóxido de carbono(T58)                                                      | 38 |
| Intoxicación por plaguicidas(T60), Intoxicación por ponzoña de animales(T63, X21, X27, EXCEPTO T63.0 Y T63.2), Picadura o intoxicación por otros animales ponzoñosos(T63.1, T63.5-T63.9, X27, U60.8), Intoxicación por picadura de alacrán(T63.2, X22) | 39 |
| Mordedura de otras arañas(T63.3, X21 EXCEPTO U60.2 y U60.3), Picadura por otros artrópodos(T63.4 EXCEPTO U60.4 y U60.5), Efectos del calor y de la luz(T67, X30), Hipotermia(T68)                                                                      | 40 |
| Mordedura de araña viuda negra(U60.2), Mordedura de araña violinista(U60.3), Picadura de abeja(U60.4), Picadura de avispa(U60.5)                                                                                                                       | 41 |
| Eventos supuestamente asociados a la vacunación (ESAVI)(Y58, Y59)                                                                                                                                                                                      | 42 |

### Nutrición

|                                                                                                     |    |
|-----------------------------------------------------------------------------------------------------|----|
| Desnutrición severa(E40-E43), Desnutrición moderada(E44.0), Desnutrición leve(E44.1), Obesidad(E66) | 43 |
| Anorexia, bulimia y otros trastornos alimentarios(F50)                                              | 44 |

### Displasias y Neoplasias

|                                                                                                                                                                                                |    |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Tumor maligno del esófago(C15), Tumor maligno del estómago(C16), Tumor maligno del colon y recto(C18-C21), Tumor maligno del hígado y de las vías biliares intrahepáticas(C22)                 | 45 |
| Tumor maligno del páncreas(C25), Tumor maligno de tráquea, bronquios y pulmón(C33-C34), Tumores malignos de los huesos y de los cartílagos articulares(C40-C41), Tumor maligno de la mama(C50) | 46 |
| Tumor maligno del cuello del útero(C53), Tumor maligno del cuerpo del útero(C54), Tumor maligno del ovario(C56), Tumor maligno de la próstata(C61)                                             | 47 |
| Tumor maligno de riñón(C64), Tumores malignos del encéfalo y de otras partes del sistema nervioso central(C70-C72), Linfoma Hodking(C81), Linfoma no Hodking(C82-C85)                          | 48 |
| Leucemia(C91-C95), Displasia cervical leve y moderada(N87.0-N87.1), Displasia cervical severa y CaCu in situ(N87.2, D06)                                                                       | 49 |

### Defectos al Nacimiento

|                                                                            |    |
|----------------------------------------------------------------------------|----|
| Anencefalia(Q00), Encefalocele(Q01), Microcefalia(Q02), Espina bífida(Q05) | 50 |
| Labio y paladar hendido(Q35-Q37)                                           | 51 |
